Case 2 – Search a buyer for a plant – ordered by the owner

Selling a complete crushing plant - September 2013

- The owner gives the order to sell the complete plant – we should search for an buyer
- Our staff visits in the same week the plant generating the documentation, technical data and photos of the plant equipment
- Preparation of the plant exposé with the corresponding technological data and photos, documenting the actual status in format PDF
- Publication of the documentation on visible places in our web page - as example on the starting page as special offer
- Inclusion of the offer in our bi-monthly Newsletter or in a special newsletter with a distribution of nearly 7000 registered persons or enterprises
- Definition of a potential buyer group by price and financial standing from the prospective buyers which was invited to visit the plant to define the final price and conditions of a contact
- Selection of the buyer and preparation of the contract by our staff was the last activity in this case.

*All the activities were realized
in one month!*

- We are able to offer our services in dismantling the plant and organize the transport, if the buyer is interested.
